Tomorrow, November 1st, being the Festival of All Saints the Church of the Nativity will be open for divine service at 10:30 a. m. The Holy Communion will be celebrated.

A prominent business man was heard to say today that this was the first year after the A. D. P. when asked what he meant by the A. D. P. he said it was the "American Democratic Panic."

There died in Washington City last week a man who, in his lifetime, it is said, has handled more money than any other person in the world. He was William Barnes, a Clerk in the Treasury's Office. In one day \$600,000 in money had passed through his hands.

Superintendent J. J. McDuff of the Lexington Foundry Company, while trying to stop a flow of molten iron, overturned the vessel, throwing the molten metal in his face. The fluid settled in his eyes and face and he was badly burned.

George Lawhorn, his brother John, and Adolph Davis have been getting out stove lumber near Clarkburg, Lewis county. Friday night while they were away some fire entered their shanty and poisoned their food. They expected to die. The officers believe they are on the track of the wretch who committed the deed.

MYSTERY HAPPY.

Oh, we're feelin' mighty happy As along the road we jog. For the fact is on the poem, An' the bark is on the dog.

An' life is not a riddle, But is happiness complete. For the bow is on the fiddle, An' the note is on the reel!

Then sing the joy of livin', An' just go it with a whoop! For the cash is on the counter, An' the oyster is in the soup!

MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

WHITE STREAMER—FAIR; BLUE—BREEZE OF WIND; WITH BLOOD ABOVE—WILL WARMEN GROW.

IF BLOOD'S BENEATH—COLDER'TWILL BE; Unless Black's shown—no chance we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 10 o'clock tomorrow evening.

This is the last day for paying city taxes.

The Frank Owens Hardware Co. ask you to inspect their new stock of table cutlery, carving sets and butcher knives. All grades from the cheapest to the handsomest made.

Abernethy, the Johnson county midwife, is dead near Paintsville at the age of 52. He was a well known character in the upper Big Sandy valley, and never weighed more than forty-five pounds. At the time of his death he weighed about as many inches in height. He succumbed to a sudden attack of pneumonia. During his life he refused many liberal proposals from traveling showmen and preferred his country store to making himself an object for the curious. He never married, and was worth possibly \$5,000.

HEART TROUBLE.

Caused the Death of Mary Garrison Last Evening.

Mary Garrison, a colored woman in the employ of Mrs. Andrew Mitchell, on Third street, West of Limestone, dropped dead last evening about 5:30 o'clock.

She had been ill for several days, and yesterday feeling a little better, she went to work as usual.

She was waiting on the table at supper, when a pain struck her heart, she fell and expired in a few seconds.

Dr. Samuel was hastily summoned, but when he arrived she had been dead some time.

The undertaker was notified, and her body was removed to her brother-in-law's, Jim Carlisle, on Fifth street, where it was prepared for burial.

She was a quiet and good colored woman, and had had some trouble before with her heart.

The arrangements for the funeral have not been made as yet.

MORE VOTERS.

How the Final Registration Progresses at the Clerk's Office.

Register today.

It will be your last chance.

And if you do not register you cannot vote at any election held within a year.

Below The Ledger gives the result of yesterday's special registration at the County Clerk's office, together with that of the previous day:

Monday. Tuesday. Total.

Republicans..... 34 17 41

Democrats..... 35 8 43

Non-committal..... 6 8 14

Total..... 75 23 98

Of the 8 who yesterday did not give their party affiliation, 4 are known to be straight Republicans; from which it appears that our friends the enemy are not getting very much the best of it.

Adding the above figures to the regular registration, we have this total result to date:

Republicans..... 629

Democrats..... 714

Non-committal..... 222

Total..... 1,565

In 1893 the total registration was 1,521, showing a gain of 44 this year, with one day to go on.

Boys, keep your eyes on the Indicator.

If you have not registered, go today to the County Clerk's Office and do so.

The Belmont Nail Factory at Ironton has closed down for a couple of weeks, owing to slow nail market.

The ladies of the Methodist Church at Paris cleared \$327 on the banquet they furnished the Oddfellows during the recent meeting in that city of the Grand Lodge.

Invitations have been issued to the marriage of Charles Early and Miss Anna D. Berry, a prominent young couple of Wedonia. They will be married at the bride's home in Wedonia November 15th.

Mr. R. J. Spurr of Greendale, a gentleman in his 57th year, informed a friend at Lexington that he had been a Democrat from the first time he ever cast a vote, but that he couldn't vote for Hon. W. C. Owens.

Dr. N. A. Vest, one of the most noted practitioners in the state, died at Lexington after a brief illness of pneumonia.

The United States Government has presumed to deny the request of Governor Ben Tillman of South Carolina for permission to seize whisky in bonded warehouses when the owner of the whisky has violated the dispensary law.

Annie Boely, a young woman passenger on a Louisville Southern train, leaped from a coach at High Bridge and was badly hurt. Had she jumped a moment sooner she would have fallen 285 feet. It is not known whether she attempted suicide or whether she was afraid she would be carried beyond her destination.

Mr. Hines, Official Reporter of the Court of Appeals, is at work on the index of the nearly complete ninety-fourth Kentucky report, and if the latter comes from the library in December, is expected, it will be the third one of these volumes to appear this year, and will be a recorder breaker for the Reporter and Public Printer.

A new departure in public night schools has been made in Philadelphia by de-rogating one of the schools to a course of lectures on the history and working of our political system. National, state and municipal government will be taken up in turn. Three lectures a week will be given, intended more particularly for young men, but free to all who choose to attend.

The fighting committee appointed recently by the meeting of the property-holders protesting against the increase of fire insurance rates in Lexington, met and took important action to resist the increase. The Chairman was instructed to have drawn up articles of incorporation for a new insurance company, with a capital of one hundred thousand, to be increased at option to half a million dollars, said company to insure only property of Lexington and vicinity.

Judge James Jewell of Lexington, author of the well known aphorism, "Politics is hell," has declared the barber's Sunday closing law unconstitutional, and the shops in that city are now wide open on Sundays.

COLLINS-MYALL.

Mr. Scott Collins and Miss Luella Myall to Wed Next Month.

Handsome invitations soon be sent out, reading as follows:

Mr. and Mrs. Jonas Myall request your presence at the marriage of their daughter, Luella T.

Mr. Scott Collins, at the Christian Church, Tuesday, November 20th, 1894, at 1:45 p. m.

Miss Myall is a most charming and accomplished young lady, and Mr. Collins may well be congratulated on securing her for his bride.

LOWER WAGES.

After Losing \$1,500,000 in Pay, the Big Strike is Ended.

The Democratic Free-traders keep on with their lying stories about good times and good wages under the new Tariff Law.

Ten weeks ago the weavers of Fall River, Mass., went out on a strike.

Monday the strike was declared off and the weavers went to work Tuesday, under a reduced scale of wages.

For eight weeks some 25,000 operatives were thrown out of work, and for the past two weeks about 8,000 were affected.

The strong letter of the manufacturers, in which it was stated that no conference would be held and no concessions made, and the fact that the Union's finances were in a very low condition, was the cause of breaking down the resistance that had been offered.

Some 1,800 operatives crowded the Academy of Music and speeches were made by Secretary Whitehead and others.

The general advice given was that it was wise to return to work under the terms offered.

A rising vote was taken on the question of returning, and hardly 35 persons voted to remain out.

The operatives lost \$1,500,000 in wages, while the loss to the mills was not so severe, owing to the depressed condition of trade.

The sympathy of the public has been overwhelmingly in favor of the strikers, but there is much satisfaction on all sides now that the long fight is ended.

WHO TO VOTE FOR.

CANDIDATES PRESENTED BY THE REPUBLICAN PARTY.

Brief Sketches of George W. Adair and J. David Dye, Candidates for County Attorney and Assessor.

Be sure to put the X mark right under the Eagle, inside of the border.

George W. Adair, Republican candidate for County Attorney, was born near Lewisburg, Mason county.

He is a great-grandson of John Adair, who was Governor of Kentucky in 1820.

His father, Isaac Adair, was a native of Virginia, but his mother was born in Mason county.

When young Adair was four years old his parents moved to Lewis county, locating near what is now Ruggles Camp ground, where his father followed farming.

Three years later the father died, and from the age of 7 years George W. Adair has struggled as a few men have.

It is told of him that he has cut corn many nights in order that he might go to school next day.

All the education he has acquired through his own unaided efforts, and after he had gone through the schools of his neighborhood he himself became a teacher, devoting his spare time to reading law.

After studying for two years in the office of the late Hon. W. H. Wadsworth Mr. Adair was admitted to the Bar in 1873.

Shortly after his admission he was taken ill, and a prolonged sickness left him in reduced circumstances, to recover from which has been his honest aim for many years.

This is the first time that Mr. Adair has ever presented himself for an elective office, and surely no man is more deserving of the encouragement that an election would give him.

He is a good lawyer, as will be attested by his fellow-members of the Bar; that he is a poor man, who has had a life-long struggle with adversity, is known of all men.

His election to the office of County Attorney will be a "silver lining" to a cloud that has hung long and darkly about him.

MR. J. DAVID DYE.

Our Candidate for County Assessor—A Native of Sardis, and a Most Popular Gentleman.

Mr. J. Dye—whom "most every one knows as "Dave" Dye—was born in the beautiful village of Sardis, in this county, May 9th, 1850.

After receiving a liberal education he engaged in mercantile pursuits with his father, Mr. George W. Dye, and there received a business training that fitted him for the duties of after life.

He remained with his father until 1880, when he came to Mayville and took the position of bookkeeper with The Mayville Republican, which he filled to the entire satisfaction of his employer.

Later he traveled for several years for E. A. Robinson & Co. of the Limestone Cigar Factory, and only left that position to accept the appointment as United States Gauger under the late Collector William Cassius Gooden.

So well did he perform his duties as Gauger that in February, 1892, he was made Deputy Collector of the Second Division, serving as such until September 1st, 1893, when the administration of affairs passed into other hands.

After leaving the Government service Mr. Dye formed a partnership with Mr. Joseph D. Peed, and he is today the junior member of the firm of Peed & Dye, dealers in china, glassware, etc.

Mr. Dye's business training, his knowledge of public affairs, his wide acquaintance with the people and the property of the county, render him especially qualified for the office of Assessor, and if elected, as we believe he will be, no one will have cause to regret the fact that he has this vote for Dave Dye.

The marriage of Mr. M. O. Parrish, aged 71 years, to Miss Elizabeth Grimes, aged 63 years, took place in Mt. Sterling last week.

LOOK OUT, BOYS!

Keep Your Eyes On the Outcome in New York City.

The registration of voters in the city and county of New York closed Saturday night.

It shows an enormous increase over the figure of last year, an increase that is out of all proportion to the normal growth of any year.

The total number of voters who have registered is 308,792, an increase over the registration last year of no less than 42,844.

Only 654 more voters than on record this year registered in 1893, when the Presidential canvass brought out the votes of the slower citizens, who only go to the polls when it is a question of choosing an incumbent for the White House.

The increase of registration in 1891 over the number in 1890 was 16,553. This was considered very great for a non-Presidential year. In 1886 the number of registrations exceeded those in 1891 by only 4,428.

A Presidential year (1892) intervened, and, of course, that raised issues that made the figures not at all comparable with the year when municipal issues chiefly are at stake.

Reformers claim that the figures portend a sweeping reform victory. By their efforts they say that the list has been reduced in the "crooked" districts where dead men have heretofore voted. They believe that the increase of 42,844 is made up chiefly of anti-Tammamites.

McKINLEY AND WILSON ABROAD.

In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was killed and killed in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

The Free-trade contention is that a town is made prosperous by all its people buying goods sold by merchants of some other town.

The Republicans of Arkansas propose to test the constitutionality of the law requiring the voter to exhibit a poll-tax receipt before casting his ballot.

MATSVILLE has a shoe factory. But the Bulletin is in favor of Matville dealers buying their shoes from Massachusetts factories instead of from the Matville factory.

The wool growers of Utah are shipping their sheep to market by the thousand, selling them at an average of \$1.50 per head, as compared with \$3 at the yards in 1892.

AFTER the election it will take about ten weeks for Br'er MAISE to explain why and how it happened. There won't be enough Democratic left to get up a game of old sledge.

HARTFORD'S WEEKLY, the Mugwump oracle says "the Democratic party is passing through a crisis." Just wait till "the votes come in" next Tuesday and you'll think it has passed through a sausage-grinder.

The German Senate has published a decree prohibiting the importation of live cattle and fresh beef from America. Thus it is being closed against the United States by the new Democratic Tariff Bill. It was the McKinley act that gave American farmers and manufacturers a wider market than they ever before had.

It is now the Democratic Free-trade Tariff Bill that is closing these markets against us.

If this isn't true it can't be charged to the Republicans. It is the language of that red-hot Democratic paper, The Frankfort Capital.

"Those people who have been waiting a long time on the money due them from the bankrupt Treasury of the state, claim that the state paid the schools enough money October 1st to pay the teachers and all other expenses for two months, and that there is no sense or justice in paying out more than \$200,000 to the schools November 1st while all other claimants wait on money that is long past due."

JUDGE HELM of Campbell county having decided that the Republicans cannot use the Eagle at the head of their official ticket because it is a "National emblem," THE LEDGER suggests a brick house as a suitable Republican device. That is what will fall on our Democratic friends next week.

SPARKING of the relation of the American farmer to the American miller industry, The Indiana Farmer says:

"Remove the milling industry from our country and our wheat must go abroad and come in competition with the poor and cheap wheats of Europe and India. Not only is this true, but the offfal is lost to our farmers. The foreign miller will not use American wheat until it comes down in price to the poor wheat of Europe and India, but the American flour could be placed in every market in the world, because of its superiority, if not shut out by prohibitory foreign tariffs."

Please note the italics. Now, if the Democratic contention is true, that "the consumer pays the duty," what need the American flour maker care what the amount of duty is? Doesn't the foreign "consumer" pay it? If he does, no part of it comes out of the products of the American miller, and he is at liberty to ship his flour wherever he pleases. But from the foregoing it looks very much as though the American miller must pay the expense of getting his flour to market.

The opening of the second and final session of the Fifty-second Congress, on December 5th, 1892, gave President Harrison his last opportunity for formal review of his Administration and for a full presentation of the condition of the country as that Administration drew near its close. He said:

"A comparison of the existing conditions with those of the most favored period in the history of the country, will, I believe, show that so high a degree of prosperity and so general a diffusion of the comforts of life were never enjoyed by our people."

Then were presented the figures upon which his belief was based. A few of them must prove valuable and interesting. Here are the figures:

Total wealth of the country—	1880.	1890.
Capital in manufactures—	\$1,253,000,000	2,900,753,000
Wages earned—	901,000,000	1,222,000,000
Value of products—	2,712,000,000	4,580,000,000
Income from manufactures—	1,294,000,000	4,500,000,000
Deposits in Savings Banks—	149,000,000	1,254,544,000
No. of depositors—	600,000	4,258,993
No. workmen employed—	1,301,000	2,281,000
Miles railway—	30,628	167,417

These figures tell their own story of the success of Republican rule. Study them if you wish to know the truth.

The American sheep farmer and wool grower pays taxes for township purposes; pays taxes for county purposes; pays taxes for state purposes; contributes to the building of churches; contributes to the support of the Ministry; seeks to raise and educate his children to be useful, Christian people in the world. His lands are valued at \$25 to \$100 per acre.

The Australian sheep grower raises wool on lands rented for a few cents per acre; he pays no township taxes; he pays no county taxes; he pays no state taxes; he pays no road or bridge taxes; he supports no church or other enlightening institution. He simply raises wool, and now under the new Tariff Law he comes into the American market and competes with the American farmer.

This is "Tariff reform"—free wool to drive the American farmer out of business; to reduce him and his family to woe; to rob him of the thousands of dollars that his sheep were worth under Protection.

Fatal Tenement House Fire in New York.

Seven Dead Bodies Have Already Been Taken Out.

Flames Flashed With Rapidity From Cellar to Roof—Once the Water Was Turned on the Flames Were Subdued, But the Fatal Work Was Done.

New York, Oct. 31.—Seven people were smothered to death by smoke in a tenement-house fire at 216 W. Thirty-second street, Tuesday morning. Another woman jumped from a third-story window and will die. The fire came suddenly and cut off all escape by the stairways. In the excitement everybody looked only to his or her own safety and rushed down the fire escape. The following perished in the building:

George Friedman, 4 years.
Levi Friedman, 3 years.
Annie Applebat, 23 years.
Lena Mitchell, 34 years.
Mrs. Margaret Killian, 70 years.
Jacob Killian, her son, 40 years.
George Levy, Mrs. Killian's grandson, 30 years.
Lena Friedman, mother of the dead children, jumped from the third-story window. She was badly crushed and will die.

The house is a five-story brick tenement, the ground floor being occupied by a grocery and the upper stories being arranged with front and rear apartments. There were seven families in the house. The only means of escape to the people is by means of a stairway, narrow and dark, which runs directly up through the center of the building. On either side of the tenement are houses that tower a story above the house which was burned. In the rear of the burned house is a little yard, twenty feet square, completely hemmed in by the tall tenements. The fire was discovered at 2 o'clock by passers-by. When a policeman came up the door of the tenement was open and on the inside the fire glowed like a torch. He could see that the stairway was being rapidly burned away. Still there was not a sign of life from the people in the house. To enter the house meant death. The only hope for those who were in was in arousing them by shouts, in which the policeman was aided by those who had been attracted by the fire.

Suddenly, to the noise of flames as they burned away the stairway, there was a sudden and awful cry. One of the tenants in the upper part of the house had been aroused and stood at the window. The first floor was Mrs. Elberwein, who lived alone on that floor. In another minute there was not a window in the front of the house that did not contain the wild and frightened face of some man, woman or child, each of them appealing for aid. The faces in the windows were framed in smoke, which poured forth in volumes.

In the absence of the firemen, who had not yet arrived, the fire-eaters were powerless to assist those in the building, further than to remind them of the fire escapes. By these first one woman and then another, the tenants to the number of twenty, reached the ground, descending in the midst of flame and smoke, before the ladder trucks arrived. The flames, which started in the cellar, did scarcely any damage to the ground or second floor, but on the third story they spread over the entire rear portion. There lived the family of Nathan Friedman, his wife, Lena, and their three young children. There were also two boarders, Annie Applebat, twenty-four, and Lena Mitchell, twenty-two, who were smothered by the smoke and noise. The room in which he, his wife and baby slept was already filled with smoke. Clutching the baby in his arms, and forgetting all else, he sprang to the window and descended by the fire escape.

Mrs. Friedman, too, had rushed to a window, but not where the fire escape was. The escape was but two feet from her, but fright deprived her of her reason. Behind her were the flames, twenty-five feet below her was the yard. She leaped from the window and landed in the rear basement area and was badly injured. She was conscious, however, and cried wildly for her children, who were still in the burning rooms.

The fire was extinguished soon after the water was turned on, and though the work of rescue was prosecuted with zeal from the instant the firemen arrived on the scene, they were too late. The Friedman children and the two boarders slept in an inner apartment. The fire had not reached them but the smoke had filled the room, and at least three of the occupants had suffocated without having awakened to their peril. George and Levy Friedman and Mrs. Mitchell were found in bed when found and the peaceful expression of their faces showed they had no knowledge of the death that came to them so suddenly.

Annie Applebat was lying dead on the floor. Her face was black. She had her dress and blouse on, and when she had been aroused and had stopped to don her clothing and had died before she finished her task.

On the fourth floor, also in the rear, were found the remaining victims of the fire. There Mrs. Killian, a widow, aged 70 years, lived with her son, George, and her son, Jacob. Mrs. Killian and her son were dead in bed. The grandson was on the floor, half way to the rear window. Mrs. Friedman was conveyed to the hospital. It was thought she could live but a short time. The damage to the house will not exceed \$2,000.

VICTORIOUS JAPS.

The Chinese Forces Defeated in Two Engagements on Chinese Soil. WASHINGTON, Oct. 31.—Two important and significant Japanese victories are recorded by United States Minister Denby in a cable to the state department from Peking Tuesday. He says that the Chinese forces have been defeated at Chin Lien Cheng and have retreated to Moukden; also, he reports that the Japanese have taken one of the Chinese forts at Port Arthur.

The scene of the first engagement is just across the Yalu river in Manchuria, and it marks the first real aggressive movement by the Japanese on Chinese soil. It is believed that the preceding movements on the west side of the Yalu river by the Japanese have been in the nature of skirmishes to develop the real strength of the Chinese forces. This having been done the Japanese are supposed to have formally entered upon the campaign with Moukden, the Manchurian capital, as the objective point.

Unless they are fully prepared to meet this new campaign, something heretofore unknown in eastern warfare, they will be obliged to force the fighting and move with great caution, as the days remain before cold weather comes.

In the neighborhood of Port Arthur, the Japanese are reported, the winter climate is not so severe, and operations may be maintained until much later in the season.

BOB ROBBERS.

A Jeweler Imprisoned in a Large Vault.

While the Thieves Helped themselves to \$8,000 Worth of Goods.

Watches and Jewelry Carried Off—The Robbery Occurred in Broad Daylight and Decepted Only a Few Minutes. There is No Trace of the Robbers.

CHICAGO, Oct. 31.—Two robbers made a bold play Tuesday afternoon in a downtown jewelry store, which netted them about six thousand dollars worth of watches and jewelry, and the police have not caught them yet. Soon after 2 o'clock G. W. Brethauer, the senior member of the wholesale jewelry firm of Brethauer & Co., 711 Washington street, left the office to go to Marshall Field's retail store, around the corner, and left his son in charge. The office is on the first floor of the building, in plain sight of the occupants of the big office buildings.

Young Brethauer was bending over a showcase when the robbers entered. One carried a revolver, and the other brandished a murderous looking piece of lead pipe. The jewelry was hurriedly packed and the robbers hurried to hold up his hands, which he did, and then he was told to enter the vault, the door of which stood open. He hesitated and was thrown in by the robbers, gripping his throat. The door was closed, and the desperate thieves bundled the contents of the showcase and the cash box into a sack. The work occupied only a few minutes, and when the father of the imprisoned jeweler returned and heard the noise of the robbery from the vault doors the discovery of the exhausted prisoner and the robbery was made, but there was no trace of the robbers.

LICENSE NOT NECESSARY.

A Peculiar and Aggravating Blunder Made by the Pennsylvania Legislature. PITTSBURGH, Oct. 31.—Wm. Reardon, in the criminal court Tuesday, raised a point of law which amounts to a local sensation. He was defending Thomas McQuirk, charged with perjury for falsely swearing to the age of the woman he married, and Mr. Reardon moved to quash the indictment on the ground that there was no such offense under the law, as the marriage license act was not in force, and no license was required to be taken out by parties who desired to be married.

This caused Judge Magee to remark: "Why, Mr. Reardon, you surely don't make such a statement in earnest."

"I do, your honor, and I can prove it. The marriage license act was passed in 1885, and was amended in 1893. By that amendment on and after October 1, 1893, parties desiring to be married in this state must take a license."

The acts of 1885 and 1893 were sent for and read to the court. Judge Magee said that if the act was correctly printed Mr. Reardon was right, and the present marriage license law would not be in force until 1903. By agreement of counsel, a certified copy of the act was sent for and the trial proceeded.

The point is a new one, and, it is stated, will make Pennsylvania a regular Green State, as any one can be married in this state without a license.

COTTAQUEVILLE.

Louanna Gillespie was visiting Nora May Lyons Thursday.

Miss Barbara Boggs is spending several weeks with friends at Helena.

Professor Bayless spent Saturday and Sunday with his parents near Concord.

Ben Jones, who has been visiting T. J. Tully's family, returned home Tuesday.

Mr. Nelson Evans and family of Clear Creek have come for a week's visit to relatives in Carter county.

Jacob Malone, who has been reported quite ill, is able to take charge of his school again at the Valley.

Miss Bridget Gilligan of Brookville has come to this place to spend the winter with her sister, Mrs. Murphy.

Ollie Gray and wife have gone to Pendleton county on a visit to their brother and sister, who are down with the fever.

Several good, strong Republicans from this place attended the speaking at Tollenboro. Everything is bright for Pugh and Protection.

Mrs. Sue Williams of Germantown and Mrs. Maggie Bell of Johnson's Junction are visiting their relatives and many friends at this place this week.

One of the most successful two weeks meetings has just closed at Bethany Church that has been held there for quite a number of years. Twenty-eight, or thirty additions have been made to the church through the soul stirring and eloquent preaching of Elder Thomas P. Degman. Brother Degman, as he is called by both old and young, is a man that always draws large crowds wherever he preaches through his earnest and impressive eloquence for the cause of Christ.

CONCORD.

Three great big cheers for Hon. Samuel J. Pugh!

W. H. Cox was in Cincinnati last week buying his winter goods.

C. A. Taylor was appointed Postmaster at Covale, vice A. M. Lang.

Elmer Thomas is visiting his mother. His place of business is at Mayville.

Several of the boys were arrested and fined \$1 and costs for rocking trains one day this week.

Only a few days more until you will hear the sweet bells of the Republican victory all over the United States.

The C. and O. p. car went through today paying off the lads. Thirty minutes of sunshine and thirty days of grief.

J. H. Raymond of Mayville was in town visiting his sister, Mrs. A. J. Boyd, and that is not all the attraction there is in Concord for him, either.

The city will have an election soon to elect all new officers. We hope they will put somebody in that knows something; not a lot of old cranks like the present Council.

Jessie Thompson, the agent at Greenup, stopped off here to see his brothers. He is on his way to California for his health, and will be gone six months. His wife will remain here with her father until he returns.

Charles Hyfield left Monday morning for Bloomington, Ill., where he will make his future home. Charles has been with Sam McBeth for several years here, and he is an upright young man. We will wish him success.

The Concord Red Breaches played their last game last Saturday and won the championship of Lewis county. They would like to have had another game with the Mayville Club. They wrote three different letters to them, but they received no response, consequently they had to lay up for the winter, with headquarters at Concord.

Captain Boyer and R. D. Wilson, both Democrats of Kentucky, in our little town the other night making speeches. There were four Democrats present and about eighteen Republicans. The speeches were very rank on account of there being no one on the other side to answer. Wilson said the Democrats have the credit of iron being 45 cents a bushel. Come around again, and we will have a good Republican here to answer you.

The marriage of Mrs. Lucy Waller of Carletoe to Mr. Ed. Ross of Lexington will take place November 7th.

The Frank Owens Hardware Co. have the handsomest line of coal vases, shovels, pokers, tongs and stands ever shown in this city. Call and see the low prices.

What Shall I Take

Is the anxious question asked by those who are not feeling well—have no appetite—are out of sorts—have no energy—feel tired out. Perhaps you are feeling sick yourself.

Many medicines are recommended, doctors consult—(in many cases) much money spent in this search for health—and yet it can all be avoided. Wise people commence at once taking

Brown's Iron Bitters

and are soon made well and strong. Nearly every prescription given by physicians for such troubles contains IRON—which some people say they cannot take. Try *Brown's Iron Bitters*—it is warranted not to give headache, stain the teeth or cause constipation as all other Iron Medicines do.

Genuine has the crossed anchor mark.

BROWN CHEM. CO. BALTIMORE, MD.

This evening Mr. John Griffith's combination will present Goethe's poetic masterpiece "Faust" at the Opera-house. The production is said to be a revelation in stage craft, all the ingenuity of the scenic artist, the electrician and the stage carpenter having been brought into play, forming the most startling, dazzling and realistic presentation of this idealistic drama ever placed on the stage.

Eyes tested and glasses fitted by Dr. P. G. Smoot. Satisfaction guaranteed.

Have you the headache? If so, cure it by taking Chenoweth's Headache Cure.

Cost! Cost!

The Citizens' Coal Company on Commerce street, Fifth Ward, have received a fresh supply of Pomeroy Coal, equal to the Peacock Coal, and will sell delivered, for cash, as cheap as any in the market. All orders promptly filled.

J. HAMILTON, Agent.

We examine your eyes scientifically and make the glasses to fit. We can give you the names of hundreds from our prescription book who have been successfully fitted by our method who never had glasses to suit them before. We guarantee satisfaction in every case and make no charge for examination. Ballenger, Jeweler.

THE MAYSVILLE REPUBLICAN

WEEKLY PUBLIC LEDGER.

Did U?

Did you ever think that relatives or friends who have moved to distant places—gone West, perhaps, to grow up with the country—are always glad to hear from their "old Kentucky Home?" And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of The Public Ledger—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less than cost to you can write a letter every week? Besides, don't you think a year's subscription to THE REPUBLICAN would be a present highly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.
